Japanese garden 'Koko-en' was constructed in 1992 at the exact site of Nishi-Oyashiki (Lord's West Residence) with Himeji Castle, one of the world cultural heritages, as a background. The area of this garden is about 3.5 ha and it is composed of nine different gardens, built on the archaeologically excavated site of samurai houses and roads. Using the gardening techniques in the Edo period (ca. 1600-1860) as a good model, 'Koko-en' creates historical atmosphere with the magnificent view of Himeji Castle.

We hope you will have a good stroll and feel history in 'Koko-en' with Himeji Castle.

位于姬路城西宅邸遗址的庭园「好古园」是以世界文化遗产、国宝姬路城为背景，于1992年开园的日本式园林。这处庭园有效地利用了经发掘调查被确认为是武士宅邸的房屋遗址和道路遗址，由九处各具情趣的园林群组成，面积大约有3.5公顷。引入眼帘的姬路城景观，以及近代园林为样本的建筑手法，打造出了一幅仿佛置身于江户时代的新鲜韵味的历史景观。

请边眺望姬路城，边漫步日本园林。

일본정원「코코엔」은 히메지성의 서쪽에 있었던 성주의 저택에 만들어진 정원으로 1992년에 개원한 일본정원입니다. 발굴조사로 확인된 서쪽 저택유적과 무사 저택유적, 통로 등의 부지유적을 그대로 살려 9가지의 각기 다른 풍취를 느낄 수 있는 정원으로 구성되어 있으며 그 면적은 약1만평에 달합니다. 히메지성을 배경으로 하며 곳곳에서 에도시대의 정취를 느낄 수 있는 정원 코코엔을 여유롭게 산책하십시오.

Le Koko-en est un jardin japonais qui a été construit en 1992. D'une superficie de 3.5 hectares, il se compose de neuf jardins différents établis sur le site archéologique où se trouvaient Nishi-Oyashiki (la résidence ouest du seigneur féodal) et quelques maisons de samuraï.

Utilisant comme modèle les techniques de jardinage de la période d'Edo (environ 1600-1860), le Koko-en reproduit l'atmosphère d'antan; il vous offrira une vue splendide sur le Château de Himeji, l'un des trésors nationaux du Japon inscrit au patrimoine mondial de l'humanité.
